

M.A. Smith

MEMORANDUM FOR: ~~The~~ Director

The situation has changed since the day when you asked for a paper setting forth differences of view respecting China. The experts are closer together, and their disagreements are less relevant. Accordingly the attached memo is not quite what you asked for, but it may still be interesting. A representative of OCI helped us with it and does not disagree. State's view is not at variance -- the position to which State agrees will be in the Current Intelligence Bulletin Saturday morning, the 16th.

Be sure to get it. Not
